General Approach

The aim of this Acceptable Use Policy is to ensure that students will benefit from learning opportunities offered by the school's digital resources in a safe and effective manner. The responsible use of internet and digital technologies, both online and offline and access is considered an integral part of teaching and learning. Therefore, if the school AUP is not adhered to agreed sanctions will be imposed.

It is envisaged that school and parent representatives will revise the AUP at least annually. Before signing, the AUP should be read carefully to ensure that the conditions of use are accepted and understood.

When using the internet students, parents and staff are expected:

- To treat others with respect at all times.
- Not undertake any actions that may bring the school into disrepute.
- Respect the right to privacy of all other members of the school community.
- Respect copyright and acknowledge creators when using online content and resources.

The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. These strategies are as follows:

- Filtering software and/or equivalent systems will be used in order to minimise the risk of exposure to inappropriate material.
- Uploading and downloading of non-approved software will not be permitted.
- The use of personal external digital storage media in school, requires school permission.

Web: www.murhurns.com

This Acceptable Use Policy applies to students who have access to and are users of the internet in Murhur NS .

- It also applies to members of staff, volunteers, parents, carers and others who access the internet in Murhur NS .

Misuse of the internet may result in disciplinary action, including written warnings, withdrawal of access privileges, detention and, in extreme cases, suspension or expulsion. The school also reserves the right to report any illegal activities to the appropriate authorities.

Murhur NS will deal with incidents that take place outside the school that impact on the wellbeing of students or staff under this policy and associated codes of behaviour and anti-bullying policies. In such cases Murhur NS will, where known, inform parents/carers of incidents of inappropriate online behaviour that take place out of school and impose the appropriate sanctions.

Murhur NS implements the following strategies on promoting safer use of the internet:

- Pupils will be provided with education in the area of internet safety as part of our implementation of the SPHE and other curriculum areas.
- Teachers will be provided with continuing professional development opportunities in the area of internet safety.
- Murhur NS participates in Safer Internet Day activities to promote safer more effective use of the internet.

This policy and its implementation will be reviewed annually by the following stakeholders:

Board of Management, teaching staff, and support staff.

Content Filtering

Murhur NS has chosen to implement the following level on content filtering on the Schools Broadband Network:

Level 4 This level allows access to millions of websites including games and YouTube but blocks access to websites belonging to the personal websites category and websites such as Facebook belonging to the Social Networking category.

Students taking steps to by-pass the content filter by using proxy sites or other means may be subject to disciplinary action, including written warnings, withdrawal of access privileges, detention and, in extreme cases, suspension or expulsion.

Internet Use

Students will not intentionally visit internet sites that contain obscene, illegal, hateful or otherwise objectionable materials.

Students will be encouraged to report accidental accessing of inappropriate materials in accordance with school procedures.

Students will report accidental accessing of inappropriate materials in school but outside the classroom to the Class teacher/SNA/Principal.

Students will not copy information into assignments and fail to acknowledge the source (plagiarism and copyright infringement).

Students and staff will be aware that any usage, including distributing or receiving information, school-related or personal, may be monitored for unusual activity, security and/or network management reasons.

Students will use the Internet for educational purposes only.

Students will not engage in online activities such as uploading or downloading large files that result in heavy network traffic which impairs the service for other internet users.

Students will not download or view any material that is illegal, obscene, and defamatory or that is intended to annoy or intimidate another person.

Downloading by students of materials or images not relevant to their studies is in direct breach of the school's acceptable use policy.

Students will never disclose or publicise personal information or passwords.

Cyberbullying

In accordance with the Anti-Bullying Procedures for Schools, Murhur NS considers that posting a single harmful message/image/video online which is highly likely to be reposted or shared with others can however be seen as bullying behaviour.

This type of bullying is increasingly common and is continuously evolving. It is bullying carried out through the use of information and communication technologies such as text, social media, e-mail, messaging, apps, gaming sites, chat-rooms and other online technologies. Being the target of inappropriate or hurtful messages is the most common form of online bullying. As cyberbullying uses technology to perpetrate bullying behaviour and does not require face to face contact, cyberbullying can occur at any time (day or night). Many forms of bullying can be facilitated through cyberbullying. For example, a target may be sent homophobic text messages or pictures may be posted with negative comments about a persons sexuality, appearance etc.

Access to technology means that cyberbullying can happen around the clock and the students home may not even be a safe haven from such bullying. Students are increasingly communicating in ways that are often unknown to adults and free from supervision. The nature of these technologies means digital content can be shared and seen by a very wide audience almost instantly and is almost impossible to delete permanently. While cyberbullying often takes place at home and at night, the impact can also be felt in school.

In accordance with the Anti-Bullying Procedures for Schools, Murhur NS considers that a once-off offensive or hurtful public message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

When using the internet students, parents and staff are expected to treat others with respect at all times.

Engaging in online activities with the intention to harm, harass, or embarrass another student or member of staff is an unacceptable and absolutely prohibited behaviour, with serious consequences and sanctions for those involved.

Measures are taken by Murhur NS to ensure that staff and students are aware that bullying is defined as targeted behaviour, online or offline, that causes harm. The harm caused can be physical, social and/or emotional in nature. Bullying behaviour is repeated over time and involves an imbalance of power in relationships between two people or groups of people in society. Posting a single harmful message/image/video online which is highly likely to be reposted or shared with others can however be seen as bullying behaviour.

The prevention of cyberbullying is an integral part of the anti-bullying policy of our school.

In accordance with the Department of Education's Procedures to Prevent and Address Bullying Behaviour for Primary and Post Primary Schools; Murhur NS considers that a school is not expected to deal with bullying behaviour that occurs when students are not under the care or responsibility of the school. However, where this bullying behaviour has an impact in school, schools are required to support the students involved. Where the bullying behaviour continues in school, schools should deal with it in accordance with their anti-bullying policy.

AI technologies are integrated into the curriculum to enhance learning and support educational goals. For example; Use AI to generate art, noting the origins of its materials, get students to fact-check essays generated by AI based on their own prompts, incorporate AI-Powered games like Quick Draw or Minecraft.

Important: Before introducing any new app into the classroom, take a look at these important considerations:

<https://www.webwise.ie/trending/considerations-for-introducing-a-digital-tool-app-into-the-classroom/>

Students will not create, share or send any AI generated material that is illegal, obscene, and defamatory or that is intended to annoy or intimidate another person.

Staff and pupils must not use AI in any way to harass, insult, abuse or defame pupils, their family members, staff, other members of the Murhur NS community

Staff and pupils must not engage in activities involving AI generated material which might bring Murhur NS into disrepute.

Murhur NS provides training and professional development opportunities for teachers to effectively utilise AI tools in their teaching practices, ensuring they stay up to date with technological advancements.

Murhur NS promotes digital literacy and critical thinking skills to help students understand AI, its implications, and responsible usage. This includes data literacy, verification of AI-generated information, and recognising potential biases in AI tools.
